

1. Signup / Login

To begin using Ottomate app you have to Sign Up using any of the following methods:

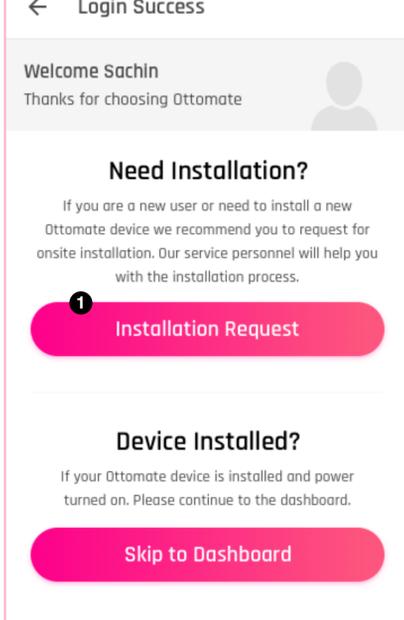

- 1 If you use truecaller you can Signup/ Login by tapping the truecaller button.
- 2 Also, you can enter your phone number in the given text box to verify with a one-time password.

2. Request For Installation

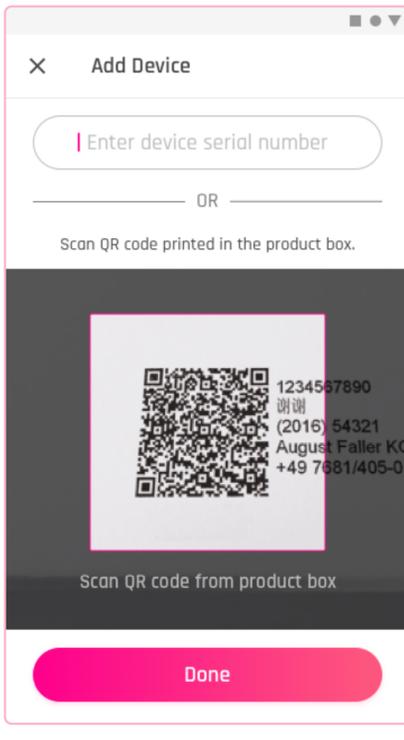

Ottomate provides onsite service to install and set up your new Ottomate product.

- 1 Once you verified and created an account in the app, tap on the 'Installation Request' button to submit your first onsite installation request.

3. Scan the product QR code

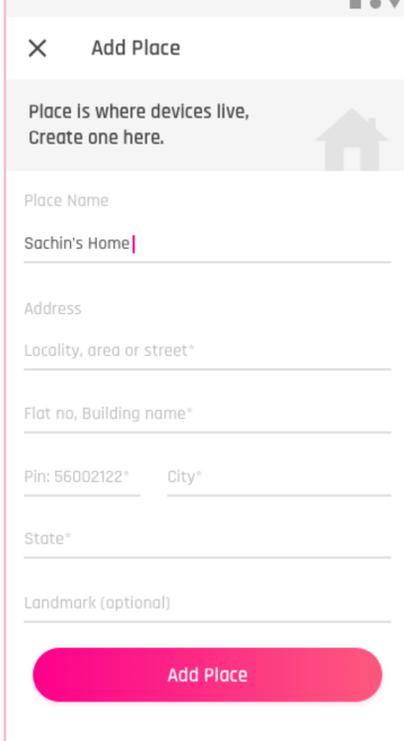

All Ottomate products come with a unique serial number which can be found on the box, along with its QR code. Scan the product QR code of which you want to be installed by service personnel.

4. Add Place and Address

You need to create a minimum of one 'place' to add your new ottomate product along with the address where it needs to be installed.

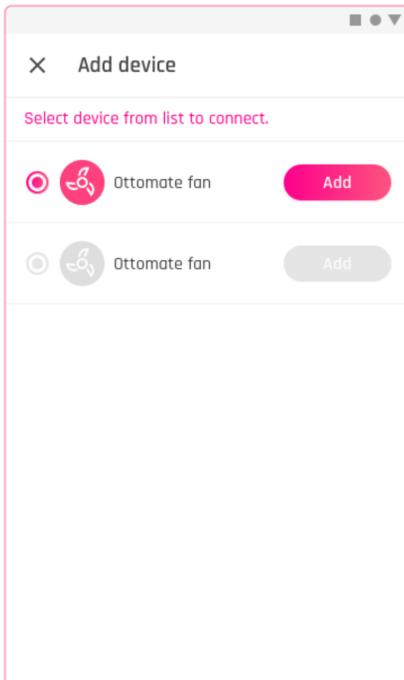

You can add or remove as many places you need later in the 'Manage Place' screen from the side menu.

5. Add device into Place

Once the fan installed and turned on, it will get listed in the add device screen then follow the instruction below:

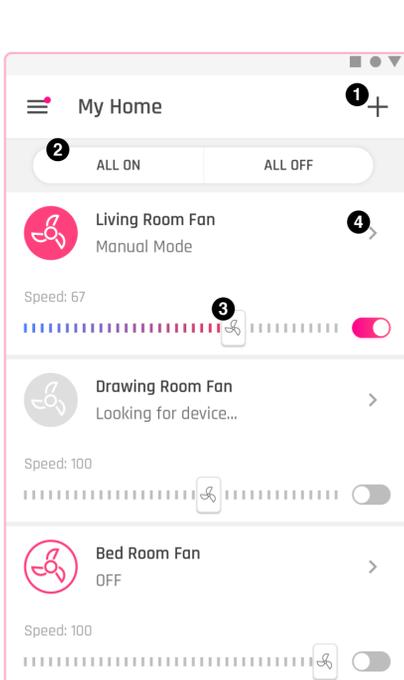

1. Make sure you are connected to the internet and Bluetooth is on.
2. Select the device which you want to add.
3. Look for blinking light in the fan.
4. Tap the 'Add' button and follow instructions.
5. Rename the fan and tap on 'Done'

6. Dashboard

The dashboard is where you see all your added devices with their basic controls.

- 1 Add new device
- 2 Master switch
- 3 Speed control
- 4 Modes & fan settings

7. Invite a new user

From the side menu, you can invite and manage new users by their phone number.
